Hotel Reviews

Stay at **Hamar Vandrerhjem Vikingskipet** when you travel to beautiful Lake Mjøsa. This 2 star **Norway guest house** offers modern guest rooms and great amenities in the town of Hamar, in close proximity to the indoor speed skating rink called the *Vikingskipet* (Viking Ship), built for the 1994 Winter Olympics.

Hamar Vandrerhjem Vikingskipet is a friendly, informal accommodation that is a member of Norske Vandrerhjem / Hostelling International. Within the large, modern lodge are meeting rooms and conference facilities suitable for groups of various sizes. A **bistro** called Ny & Ne Spiseri serves breakfast, lunch, and pizza for dinner. There's also a **communal kitchen** where guests can prepare meals for themselves. Wireless internet access and a continental breakfast are included in the room rates.

Near the shores of Lake Mjøsa, the guest house is close to Åkersvika, a nature reserve known for its wonderful birdlife. Hamar Vandrerhjem Vikingskipet is approx. 2.1 km/1.3 miles from the centre of town, a pedestrian walkway that connects 2 main squares called *Stortorget (the Big Square)* and *Østre Torg (the Eastern Square)*. Along the lakeshore to the west is the Hedmark Museum, a major Hamar attraction also called the *Domkirkeodden, or cathedral promontory*. The remains of a medieval cathedral are enclosed in a monumental glass structure; the complex also includes an ethnological museum, photography collections, and an active archeological site. For recreation, head to the Ankerskogen swimming hall (*Ankerskogen svømmehall*), which has saunas, a hot tub, a children's pool, and one of the largest swimming pools in Norway.
